Linear Vacuum Filter
# CLF SERIES

Product Features

1. Filter out dust and impurities from air supply port.
2. Transparent shell to check the pollution degree of filter directly.
3. Connect with vacuum generator's port directly, for example: **CTM, CTM combined type**.
4. Compact structure, small volume, economic and environmental protection.

Range Of Application

★ Apply to vacuum system with moderate to light pollution.

Performance Parameter

Model	Applicable Pressure Range (kPa)	Material	Temperature Range (℃)	Filtration Accuracy (μm)	Weight (g)	Nominal Flow (L/min)	Internal Vacuum (cm³)
CLF06	−100~0	PP	0−80	20−25	3.5	25	4
CLF10	−100~0	PE	0−80	20−25	13	220	20

Dimension (mm)

CLF – 06

Φ4, Φ18, 10, 68, 9.5

CLF – 10

G3/8, G3/8, Φ20, Φ26.5, 11.5, 61.5, 80
